MEMORANDUM FOR: [redacted] 25X1
Special Assistant for the
Director of Central Intelligence

FROM : [redacted] 25X1
Chief, Technology Transfer
Assessment Center

SUBJECT : Recent TTAC Involvement With 25X1
the DCI STAP [redacted] 25X1

1. This memorandum is for your information only. [redacted] 25X1

2. Recently, TTAC initiated an historical study of Soviet ICBM guidance system technology. The effort is to be a thorough examination of the role of Western technology transfers in ICBM accuracy improvements noted in the 1970s. A contractor, [redacted] will conduct the study with the assistance of experts from OSWR. I have asked the DCI STAP to oversee and advise us in the direction of this effort. I expect they will provide guidance and suggestions on analytic methods and data sources. [redacted] 25X1
